

Announcements

For more information and online registration for any of the conferences listed below, please visit www.asms.org/conferences.

ASMS Asilomar Conference Novel Instrumentation in Mass Spectrometry and Mobility Spectrometry

October 14 - 18, 2016

Asilomar Conference Center
Pacific Grove, CA

www.asms.org/conferences/asilomar-conference

Organizers

Daniel Austin, *Brigham Young University*
Zheng Ouyang, *Purdue University*

ASMS Fall Workshop Sample Preparation for Analysis of Real-World Samples by Mass Spectrometry: The Common Denominator for Quality Data

November 3 - 4, 2016

Sheraton Inner Harbor Hotel
Baltimore, MD

www.asms.org/conferences/fall-workshop/fall-workshop-homepage

Organizers

Jack Henion, *Advion*
Russell Grant, *LabCorp*

ASMS Sanibel Conference Peptidomics: Bridging the Gap between Proteomics and Metabolomics by Mass Spectrometry

January 19 - 22, 2017

Hilton Clearwater Beach
Clearwater Beach, FL

www.asms.org/conferences/sanibel-conference

Organizers

Per Andren, *Uppsala University*
Lingjun Li, *University of Wisconsin*
Jonathan Sweedler, *University of Illinois*

Awards

Dr. **Yury Tsybin**, CEO and Founder of Spectroswiss Inc. in Lausanne, Switzerland has been awarded the **2016 Curt Brunnée Award** from the International Mass Spectrometry Foundation during the 21st International Mass Spectrometry Conference held in Toronto, Canada, August 20-26, 2016. The award, sponsored by Thermo Fisher Scientific, is given "for outstanding contributions to the development of instrumentation for mass spectrometry by a person under the age of 45 at the time of the award". Dr. Tsybin's nomination was based on his outstanding contributions to Fourier transform mass spectrometry, allied electron-mediated ion activation/dissociation instrumentation, and method development for improved biomolecular analysis, as well as his enthusiastic promotion and teaching of mass spectrometry at all levels.

Dr. Tsybin earned a M.Sc. in Technical Physics from the State Polytechnical University, Saint-Petersburg, Russia (1994 – 2000), and his Ph.D. in Ion Physics from Uppsala University, Uppsala, Sweden (2000 – 2004) under the supervision of Prof. Per Håkansson. He then carried out postdoctoral research with Prof. Alan G. Marshall in the National High Magnetic Field Laboratory, in Florida, USA (2004 – 2006) prior to being appointed as Assistant Professor of Physical and Bioanalytical Chemistry, Head of the Biomolecular Mass Spectrometry Laboratory, and Director, Mass Spectrometry Service Facility in the Institute of Chemical Sciences & Engineering at École Polytechnique Fédérale de Lausanne (EPFL) (2006 – 2014). In 2014, he was the Founder and is currently CEO of Spectroswiss Inc. He has previously received the 2012 European Young Chemist Award Silver Medal from the 4th EuCheMS Conference, and the 2014 SGMS Award from the Swiss Group for Mass Spectrometry, and was a finalist of the 2006 Young Investigator Award from the Human Proteome Organization (HUPO). To date, Dr. Tsybin's research has resulted in 87 research papers, 5 reviews/book chapters, and 7 patents/copyrights.

ASMS Speaker Program

The ASMS has allocated funds to support an ASMS-sponsored speaker program, with the objectives to (i) support vibrant seminar programs at local MS discussion groups, (ii) increase exposure of students at non-PhD granting institutions to research in mass spectrometry, and (iii) promote exposure and professional development of young MS professionals at the onset of an independent research career.

Any ASMS member at the rank of Assistant Professor (at the time of invitation) is eligible to receive support, with no more than two sponsored trips per calendar year per speaker. Eligible hosts may be (i) any North American MS discussion group or (ii) any North American non-PhD granting college or university, with no single host to propose more than two ASMS-sponsored events in a calendar year.

Additional information regarding the program, including the application process and eligible expenses (travel, meals, lodging and expenses up to \$1500.00 per event, until the annual budget for the program is exhausted) may be found at: <http://www.asms.org/member-center/discussion-groups>.

Related Events

ASMS is pleased to offer announcements for other non-profit organizations. Please email details including website to office@asms.org.

November 30 – December 3, 2016

29th Annual Tandem Mass Spectrometry Workshop

Lake Louise, Alberta, Canada

<http://lakelouisemsms.org/>

February 2 - 5, 2017

The 22nd Annual Lorne Proteomics Symposium

Lorne, Victoria, Australia

www.australasianproteomics.org/

March 19 - 22, 2017

US HUPO: Precision Proteomics for Discovery and Health

San Diego, CA

www.ushupo.org

July 27 – August 1, 2017

Advancing Mass Spectrometry for Biophysics and Structural Biology (AMS)

Ann Arbor, MI

<http://depts.washington.edu/advms/>
